Business Wireless Broadband (4G)

Fast broadband deployment for up to 20 devices

If you are a business owner that needs convenient and cost-effective broadband for remote sites and short-term work locations, you can subscribe to Business Wireless Broadband (4G) for seamless internet connectivity on StarHub's robust 4G mobile network. It provides great convenience for locations without ready fibre access points or where it is too costly to install.

How can Business Wireless Broadband (4G) support your business operations?

Construction

My architects' and engineers' work efficiency has increased. They can instantly access internet for email communications at construction sites.

Retail or F&B

It is easier and faster to provide internet access for Point-Of-Sales system at any of my retail stores. If my retail store changes location, I just need to bring along the router.

Roadshow or Event

I do not have to worry about providing affordable WiFi access for my roadshows. My staff can simply plug the router at any roadshow locations to enjoy internet access for work.

Sign up for Business Wireless Broadband (4G) from **\$98/month** to enjoy these benefits.

- ✔ Get 30GB local data and free router rental
- ✔ Enjoy business broadband anywhere; simply bring along the router and SIM card
- ✔ Provide broadband access for up to 20 devices (within 50 metres radius*) with 4 SSIDs (WiFi) on dual-band connection and 4 LAN Ports

* No physical barriers between the router and connected devices. Typical download speed ranges from 10Mbps to 100Mbps.

LIMITED-TIME OFFER

One-Time Charge **\$160.50** waived
